ThriftFlip – Entity-Relationship Diagram

Entity = filled oval | Attribute = white oval on its entity | Double oval = weak entity | Diamond = relationship | Double diamond = identifying relationship
Double line = total participation | Single line = partial participation | 1 / N = cardinality | Underline = key (weak entity: partial key) | *Italic* = derived attribute
Foreign keys are shown as relationships, not attributes. Colours: blue = campus & catalogue, green = users, yellow = listings, orange = auctions/offers/waitlist, pink = swaps/transactions/ratings, purple = messaging & moderation
